

# How do I resolve Coinbase problems? {{ Official Number }}

Learn how to reset your Coinbase password and contact Coinbase support at 📞 +1-917-962-8805 for fast assistance with wallet access and security.

Coinbase currency is the future of finance, 📞 +1-917-962-8805 and Coinbase is one of the leading wallets in this revolution. But what happens when you forget your Coinbase password or lose access to your wallet? Panic? Not anymore. 📞 +1-917-962-8805 This blog will guide you step-by-step on how to reset your Coinbase password and how to contact Coinbase support via their official support number 📞 +1-917-962-8805.

Let's dive in and recover your Coinbase peace of mind.

## Why You Might Need to Reset Your Coinbase Password

Coinbase does not use a traditional "password" like banks do. Instead, it uses a 12-word recovery phrase—also known as the seed phrase—to access your wallet. However, if you've set up additional security like a passcode or biometric lock and forget it, you'll need to reset access.

Common scenarios include:

- Forgetting your passcode

- Resetting your phone

- App crashes or reinstall

- Changing devices

In any of these situations, your 12-word recovery phrase is key to getting back in.

## How to Reset Coinbase Password (Step-by-Step)

If you've forgotten your passcode but still have your 12-word recovery phrase, follow these steps:

- ✅ Step 1: Uninstall the Coinbase App

This removes the existing (locked) configuration from your phone.

- ✅ Step 2: Reinstall the App

Go to the App Store (iOS) or Google Play Store (Android) and download Coinbase again.

- ✅ Step 3: Open the App & Select "I Already Have a Wallet"

Don't create a new wallet—tap "I already have a wallet" to import your existing one.

- ✅ Step 4: Select Wallet Type

Choose the correct wallet type (usually Multi-Coin Wallet).

✅ Step 5: Enter Your 12-Word Recovery Phrase

Type your phrase exactly as you saved it. Spelling and word order must be perfect.

✅ Step 6: Set New Passcode or Biometric Lock

Once your wallet is restored, you can set up a new passcode, Face ID, or fingerprint.

🔔 Important: If you've lost your 12-word recovery phrase, there is no way to recover the wallet. You must contact Coinbase support immediately at 📞 +1-917-962-8805 for further guidance.

### How to Contact Coinbase Support Number?

In case you're confused or run into issues, Coinbase's support team is available to help. Contact them directly at:
